

ECE 203: Mathematics in Early Childhood Education
Dr. K. A. Korb
Lesson Plan (10 points)
DUE: 17 March 2021

NOTE. This is an INDEPENDENT assignment.

Purpose

The purpose of this assignment is to design a lesson plan to teach any developmentally appropriate maths topic. The lesson can be created for any age of children in ECE. Use the Lesson Plan headers below to plan your lesson.

Lesson Plan

Name of Activity. Give a brief title for the activity.

Level of Pupils: Write the level and/or age of pupils who will participate in the learning activity.

Duration of Lesson: Write how long the activity will last.

Learning Materials: List all materials that will be needed for the lesson.

Learning Objective: Write one objective that specifies which math skill the children will be learning in the lesson.

Step-by-Step Procedures: Write a step-by-step guide for the lesson. Be sure to list specific questions that will be asked at the appropriate step. Note that any person reading this lesson plan should be able to deliver the lesson based only on the details given here. This means the Procedure should be very specific.

Step 1. Introduction.

Step 2, Step 3, Etc.

Final Step: Summary

Assessment. Describe how you will determine whether the learning objective has been met.

Mathematize. Describe at least 3 ways that you will reinforce children's learning of the math skill by applying the skill at appropriate times throughout the school day.

Evaluation

The lesson plan will be evaluated based on the following.

- Learning Objective (1 point)
- Materials (1 point)
- Procedure (5 points)
- Assessment (1 point)

- Mathematize (2 point)
