## Portfolios in General

- **Portfolio:** Collection of documents and artifacts that showcase skills and growth
  - Carpentry
  - Tailor
  - Art
  - Architecture
  - Journalism
  - Interior design
  - Teaching

## Portfolios in Education

- **Portfolio:** Collections of information regarding each child's developmental progress
  - **Working portfolio:** Folder in which both the student and teacher place work that reflects a student's typical achievement over time
    - Select one sample of work per month or per term
    - Example: Nursery II children write their name at the end of every month in a writing portfolio
  - **Showcase portfolio:** Few carefully selected samples of work that illustrate best effort, progress, and achievements
    - Instruct children to select their best work for inclusion at the end of the term

## Science Portfolio Example

## Portfolio

- Demonstrates student progress over time
- Can contain material from children, teachers, parents, peers, and school materials
- The portfolio process is a systematic effort to collect meaningful student work
- Children should be actively involved in selecting pieces for portfolio
  - This helps children learn to reflect on their own work
  - This also helps children to review what they have previously learned

## Types of Portfolios

- **General Academic Performance:** Children select works from various domains
- **Specific Subjects**
  - Writing
  - Science
  - Social Studies
  - Art

## Portfolio

- Steps in portfolio development
  - Establish a policy: Guidelines on what will be saved and how material is used
  - Collect work samples and/or take photographs
  - Conduct learning log conferences: The teacher and child(ren) discuss what they will include in the portfolio and why
    - The teacher can record this for inclusion in the portfolio
  - Conduct portfolio conferences: Child, parent, teacher review portfolio and discuss progress and areas of improvement
